## ABOUT US

Founded in 2010, Sev1Tech is a recognized and respected technical solutions and management consulting services provider to critical missions across Federal and Commercial Clients. We emphasize corporate responsibility and excellence in service, both of which are key components in our business and operating policies.

We take great pride in conducting our business with integrity and honesty and hold our employees to the same high standard of performance and commitment. We are passionate about the missions we support and measure our success by our customers satisfaction.

## CAPABILITIES

We offer a range of IT modernization, digital engineering, and logistics services to help our clients leverage the latest technology and methodologies for their engineering and IT needs. Our solutions include cloud, DevSecOps, DataOps, AI/ML, cybersecurity, model base systems engineering, digital twin, digital thread, AR/VR, C5ISR, and contested logistics. We enable data-driven decision making, collaboration, and innovation for federal and commercial clients across various domains and sectors.
